

FREE PRINTABLE WORKSHEET

“What Are You Taking?”

A medication & supplement reconciliation worksheet — the companion tool from *The Hollow Aisle*, Book Two of The American Supplement Investigation. List everything you take, prescribed or not, in one place.

Fill in every product you take regularly — prescriptions, vitamins, herbs, and supplements alike. Bring this list to every medical appointment, and update it whenever something changes.

PRODUCT NAME	PRESCRIBED OR SUPPLEMENT?	DOSE & FREQUENCY	REASON YOU TAKE IT	STARTED (APPROX.)

Before Your Appointment, Ask Yourself

- ☐ Have I added anything new to this list since my last visit?
- ☐ Do any of these overlap — two products containing the same vitamin or mineral?
- ☐ Have I mentioned all of these to every provider I see, not just one?

At Your Appointment, Ask Your Provider

- ☐ Do any of these interact with each other or with my prescriptions?
- ☐ Am I taking more of any single nutrient than I need, once everything here is added up?
- ☐ Is there anything on this list I could safely stop taking?

NOTES FROM THIS VISIT
